

Who can better tell you what FleetRent can mean to your organization than those who already make use of FleetRent. Our customers have completed a customer satisfaction survey. During prior surveys they had already informed us how they experience the supply of services of FleetRent. They gave a score from 1 up to and including 10 for various units of FleetRent and our supply of services. Now you decide on our report!

Satisfaction with the supply of services **B+**

Expertise of account manager **A-**

Expertise of commercial office staff **B+**

FleetRent keeps its promises **A-**

FleetRent: Your partner in temporary transportation with a car fleet of no less than 9,500 cars.

FLEETRENT INCREASES YOUR RENTAL PROFIT

Of course you have professionally arranged the substitute transportation for your customers and the rental to the local professional and private market. With FleetRent you take the last step towards an optimal occupancy level by rendering your car fleet available for deployment to lease companies and national fleet owners. Result: a significant increase of your rental profit without a lot of extra work.

National network

FleetRent – the short-lease program of CarWise – fills the professional transportation needs of organizations by making use of the cars of affiliated Rent dealers. FleetRent operates on the basis of a nationwide network so that the requests of customers in the Netherlands can quickly and flexibly be processed.

Business market

The requests received by FleetRent usually have a professional background, such as temporary transportation for new employees during their probationary period, in case of temporary contracts or project work.

Only advantages

You only need to deliver the car on time. The occupancy level of your car fleet becomes higher and this does not cost you any extra work.

Because:

- W FleetRent takes care of the total sales, marketing and central acquisition and agrees on national arrangements about conditions and fees;
- W You have one contact point: the head office of FleetRent in Almere;
- W All contractual and administrative tasks are housed there so that there is also one central contact point for customers – from booking to invoicing;
- W In short: no logistical actions on your part!

Professional drivers of FleetRent come to pick up the cars you render available and deliver these to the customer. After expiry of the rental period, the car is again returned to you within 48 hours.

Always deployable

So, with FleetRent you increase your rental turnover without extra effort. Moreover, FleetRent reinforces your own position. If you cannot, or not completely, comply with a local request of a professional customer, then FleetRent prevents you from having to say 'no'. You then rent the car, or cars, you cannot deliver yourself via FleetRent. Larger numbers are not a problem at all.
